GRAND PRIX DE MONACO HISTORIQUE

13-16 MAY 2022

The **Monaco Historic Grand Prix** is a spectacular event that takes place every two years. It celebrates and commemorates the golden age of motor racing. It is an absolute must for any motorsport enthusiast! Style, glamour and quality are everywhere...

The race takes place on the streets of Monaco, the same circuit that hosted the very first motor race back in 1929. This historic event takes you back in time as some of the finest and fastest cars of their era tackle the twists and turns of the most difficult street circuit in the world. Even though the cars are priceless and unique their drivers will push them to the limit - it's sure to be an exhilarating and exciting weekend!

Watching the racing from the Salle Empire Terrace at the Hotel de Paris is a truly golden moment for any classic car fan. The proximity of the cars is breath-taking! The cars come hurtling up the hill from the port, charging into the square before turning a sharp right and heading down towards the Mirabeau corner. The backdrop is sensational too – Casino Square is a 'Belle Epoque' fairy tale.

A highlight of the weekend is a guided paddock walk, where you get to see the cars, drivers and mechanics up close and personal. There's something very special about seeing a 1930s Bugatti or a 1950s Maserati being prepared for a classic race like the Monaco Historic. The attention to detail and care lavished on these exceptional cars is a joy to watch.

The Grand Tourist team are thrilled to offer you this unique Monaco Historic experience...
